SUMMARY

Computer Science and Engineering undergraduate with practical expertise in full-stack web and mobile application engineering. Proficient across JavaScript, Kotlin, Next.js, and Node.js, combined with proven experience in open-source collaboration, competitive programming, and architecting intelligent, high-impact user interfaces.

EDUCATION

Bachelor of Technology: Computer Science & Engineering Expected 01/2029
Mirai School of Technology | Bengaluru, Karnataka

EXPERIENCE

Student at 09/2025 – Present
Mirai School of Technology | Bengaluru, IN

- Pursuing core technical curriculum focused on Data Structures & Algorithms, Full-Stack Web Development, and Applied Data Science.
- Building modular full-stack projects and collaborating actively in developer sprints and hackathons.

SKILLS

Languages	C++, JavaScript (ES6+), Kotlin, SQL, HTML5, CSS3
Web & Frameworks	Node.js, Next.js, Socket.io, Express, Bootstrap, RESTful APIs
Tools & Databases	MongoDB Atlas, Git, GitHub, Docker, Postman
Domains	API Engineering, Machine Learning, UI/UX Prototyping

PROJECTS

SmartPlate AI - AI Powered Food Waste Reduction and Mess Management Platform
Tech Stack: Next.js, React, TypeScript, Node.js, MongoDB, Gemini API, JWT, QR, Socket.io, Vercel

- Build a Full-Stack AI powered platform for hostels, PGs, colleges, and institutional messes to reduced food waste y predicting meal demand from student meal intents, attendance, and menu feedback.
- Developed role based dashboards for Students, Admin, Staff, and Owners with meal confirmation, menu management, voting, feedback, attendance, and operational analytics.

AgentScout AI – AI Job & Internship Discovery Platform
Tech Stack: Next.js, Node.js, AI APIs, MongoDB, OAuth, Vercel

- Built an intelligent platform providing tailored job and internship discovery matched to candidates' skill profiles.
- Implemented semantic search, smart filters, and secure authentication via Google & GitHub OAuth.
- Engineered personalized candidate dashboards and application status tracking workflows.

ACCOMPLISHMENTS

- **Competitive Programming:** Active solver on Codeforces, CodeChef, and LeetCode; focused on algorithmic optimization, data structure design, and execution runtime efficiency.
- **Community Involvement:** Engaged community member at Startup Party (Bengaluru), actively collaborating with early-stage founders, indie developers, and builders.
